In this topic we discuss about Vocationalisation of Secondary Education Revisited which describe as here. The book is a cutting-edge contribution to the debate which has occurred for some tim pros and cons of secondary education becoming more closely and explicitly related to preparing people for the world of work. The book provides concrete examples of the vocationalisation of secondary education, with particular reference to the situation in Africa. The target audience book includes policy-makers, practitioners, administrators, education planners, researchers, te and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational educational training - TVET.) The book appears in the Springer book series on 'Technical and Vocational Education and Training: Issues, Concerns and Prospects' and compliments the 'International Handbook of Technical and Vocational Education and Training' and other publications in the' International Library of TVET' all of which are publications of the 'UNESCO-UNEVOC International Centre for TVET' in Bonn, Germany
